The following is an incomplete (but growing) alphabetised list of teachers who practised their profession at the school through its many name-changes over 150 years. It is with regret that we admit many names will be omitted due to the time-frame, and the fact that only the names of Principals have previously been on the record. We continue to pursue every available avenue of history and memory to rectify this situation as much as possible so that when the School comes to celebrate its Bicentenary in 2061, that future Committee will have a foundation of names upon which to build. What is a school without teachers?
